

GETTING READY FOR THE NDIS

Information for carers of people with disability

Are you ready for the NDIS?

Alfred Health Carer Services invites people who care for someone with disability to attend a free NDIS information session.

The session will help carers better understand the NDIS, how to prepare to transition to the NDIS and build confidence within the new disability system.

Tea and coffee provided.

Session: NDIS pre-planning

Planning is key to accessing the NDIS. This session will assist with writing goals, identifying reasonable and necessary supports and preparing carer statements.

This event is open to carers living in the Southern Metro Region.

Alfred Health Carer Services acknowledges the support of the Victorian Government.

Please note, if the person you support has an approved NDIS plan, you are not eligible to attend this event.
